# A road map to help navigate the process of becoming a California Notary Public.

## Step 01: Education

All persons are required to take and satisfactorily complete a six-hour course of study approved by the Secretary of State prior to appointment as a notary public. *Our course is approved by the Secretary of State.* Please note that all persons being appointed, no matter how many commission terms held in the past, are required to take the initial six-hour course of study.

### **How long is my course certificate valid?**

Your proof of competition certificate is valid for 24-months from the date of issuance.

### **There is a 3-hour refresher course, can I take that version?**

The three-hour refresher course can only be used to satisfy the education requirement if the Notary Public is applying for a new commission before their current commission has expired.

### **I was a notary or my license just expired, can I take the 3-Hour course?**

No. Suppose the notary public's commission has expired. In that case, the individual must satisfactorily complete a six-hour notary public education course before being appointed for another term, even if the individual already once satisfactorily completed an approved six-hour course for a previous commission.

**Note:** If your commission expires in 90 days or less, we highly recommend you take the 6-hour course, as this version is valid whether your commission has expired or not.

**What do you need to bring to your Live Scan appointment?**

**How much does a LiveScan cost?**

The state processing fee is \$35, plus the live scan location of charge or around \$25 for a rolling fee.

**Do I need to make an appointment?**

## Step 5: Await Your Commission Packet

Your notary public commission packet will be mailed out once your application has been approved, and your background check has been passed.

### The notary public commission packet includes:

- A cover letter with instructions;
- Filing instructions;
- A notary public commission certificate;
- Two notary public oath and certificate of filing forms;
- A certificate of authorization to manufacture notary public seals; and
- A list of authorized manufacturers of notary public seals.

**Current Notaries only:** If you took the exam at least six weeks before the expiration date on your current notary public commission, your new notary public commission would not be sent to you more than 30 days before the expiration date.

## Step 6: Purchase Notary Public Materials

Once your notary public commission packet arrives, you are ready to purchase your notary public supplies.

### Below are the supplies you need.

- **Notary Public Bond:** All Notary Publics are required to purchase and file an official \$15,000 bond with the county clerk's office in the county where your principal place of business is located within 30 calendar days from the commencement date of the commission. You may utilize any bonding or insurance company of your choice.
- **Notary Public Journal:** A Notary Public is required to keep and maintain ONE active sequential journal for all their notarial acts. Journals may be purchased through local stationery supply stores.
- **Notary Public Seal:** A list of Secretary of State authorized seal manufacturers will be mailed with the notary public commission packet. These are the only manufacturers that are authorized to make notary public seals. When purchasing your Notary Public Seal, you are required to submit your original Certificate of Authorization to Manufacture Notary Public Seal.

**How much does a \$15,000 bond cost?**

You can purchase your notary bond for around \$50-200. Shop around to find the best prices.

## Step 7: File Notary Public Oath & Bond

You are almost done! Your last step is to file your oath of office and bond with the county clerk's office in the county where your principal place of business is located. This must be done within 30 calendar days from the commencement date (starting date) of the commission. This 30 day period cannot be extended.

**Does this have to be done in person?**

Statutes provide for filing the oath and bond by mail. It should be noted that the county processes documents in chronological order, but not necessarily on the date received due to the volume of documents. The oath and bond may be submitted to the county clerk prior to the commencement date of the commission and must be filed no later than 30 calendar days after the commencement date of the commission. As it's ok to mail, we highly recommend you do this in person to guarantee timely filing.

**What happens if I don't file on time?**

If the oath and bond are not filed within the 30-calendar-day time period, the commission will not be valid, and the person commissioned may not act as a Notary Public until a new appointment is obtained and the person has properly qualified within the 30-calendar-day time limit.

**Important:** The commission does not take effect until the oath and bond stamp are filed with the county clerk's office.

**Congratulations!** If you successfully completed these seven steps, you are now a California Notary Public.

**Reminder:** Your commission is valid for four years. We recommend you start your education 6-9 months prior to the end of your commission and start the process again, so there are no laps in your notary commission.
